

Introduction

This document covers several changes in the accessories and spare parts portfolio for EVBox AC charging stations. The first section covers the introduction of new spare parts for EVBox BusinessLine (4th generation). The second part covers the discontinuation of multiple accessories and spare parts. In the last section, a price update for spare parts and accessories is announced.

New spare parts

To enable easy servicing of the 4th generation modular EVBox BusinessLine, the Chargebox is introduced as a spare part available separately. The Chargebox contains the main electronics of the charging station and, in case of a hub, the modem.

The table below provides an overview of the **Chargeboxes** that will be introduced.

Article	Description	Price
SABLG4LTEHUBS	BL Chargebox Hub Incl. Modem Spare Part	€ 600
SABLG4SATS	BL Chargebox Sat Spare Part	€ 500

Below illustration shows the location of the Chargebox in EVBox BusinessLine 4th generation:
